

Xtreme Beverage Corp
proudly introduces:

BIG OL' TRUCKER ENERGY JUICE

Overview: Big Ol' Trucker is a brand new, healthy Energy Juice – the first on the market to address some of the common health issues many truckers face: obesity, heart problems, diabetes and high blood pressure. This unique, revolutionary product is not only good for truckers – it is good for everyone!

Only 70 Calories

Sweetened with Stevia Rebaudiana, a natural herb sweetener

No caffeine

Non carbonated

Tasty Fruit Punch flavor

First beverage for truckers

Heart healthy energy blend to **support blood pressure** and promote a **healthy heart**

Perfect blend of vitamins to **promote alertness** without the caffeine rush

Sponsored by the **Healthy Trucking Initiative**

"A refreshing and delightful, healthy beverage with the ability to hydrate and nourish the nervous system with a valuable percentage of B Vitamins which influences both mental and physical functions. B Vitamins are easily destroyed by stress and continuously need to be replenished. Dr. Lee foresees that this beverage may aid a driver's alertness and responsiveness."

"Along with this heart healthy blend having an immediate result, it is also a source for long term benefits. The berry used has been recognized for its contribution to the cardiovascular system which may contribute to the enlargement of blood vessels, the lowering of blood pressure, and the strengthening of the heart muscle."

Dr. Sherin Lee, ND, CNC - www.seedrlee.com

16oz
(473ml)

**WITH BLOOD PRESSURE SUPPORT
FOR TODAY'S BUSY TRUCKER**

Stevia is the worlds only all-natural sweetener with zero calories, zero carbohydrates and zero glycemic index. Medical research has also shown possible benefits of Stevia in treating obesity, high blood pressure and hypertension. Stevia acts as general tonic, which increases energy levels and mental acuity.

Hawthorne Berries are valuable in cardiovascular health because of their ability to enlarge blood vessels, therefore easing blood flow, lowering blood pressure and strengthening the heart muscle.

Taurine can support a good mood, physical energy and increase alertness without any stimulant properties. It acts as an antioxidant and reduces blood pressure and cholesterol level. It improves the detoxification function of the liver and it lessens the accumulation of lactic acid, which becomes the cause of fatigue. Taurine can be beneficial to people suffering from Type 1 Diabetes.

Inositol can aid in reducing blood levels of cholesterol, reverse nerve damage from diabetes, help breakdown and redistribute body fat, lower blood pressure and even prevent hair loss.

Ribose is a special carbohydrate that is used in the body for energy production in the cells and provides energy needed for short bursts of power movements during physical activity.
